About Me

Hello! My name is Qais Stanikzai, and I am a .NET student based in Gothenburg, Sweden. With a passion for creating dynamic and innovative software solutions, I bring my skills and experience to each project I work on. I am always eager to learn, grow, and collaborate with others to bring projects to fruition.

Experience

Volvo Cars 2019 - 2022

Logistic Planner

As a logistic planner at Volvo Cars I was responsible for managing the movement of goods and materials to ensure timely delivery and optimal supply chain efficiency. This involved analyzing demand, planning transportation, and continuously seeking ways to improve processes.

H&M 2020 - 2021

Team Leader

While working at H&M I supervised a team to reach company objectives, delegates tasks, monitors performance, supports and coaches employees, and contributes to store success.

Education

2022

IT-Högskola

.NET Developer

Studying at IT-Högskola, I learn'd .Net dev (C#, EF, ASP.NET, SQL, NoSQL) and web dev with Git. I gain hands-on experience in designing, developing and deploying software solutions.

2015

Komvux

Accounting
Assistant

Studied accounting for finance/accounting support. I learned bookkeeping, reconciling accounts, preparing financial reports, and assisting with budget preparation.

2014

Sven Eriksons

International
Baccalaureate

Completed high school education with an International Baccalaureate program, known for its rigorous curriculum and global perspective.
